

Vilair RPF Series

Reloadable Panel Filter:

- Fixed frame system, available in any size
- Only media needs to be replaced
- Standard 20, 25 or 50mm deep frame
- No holding frame required
- Classification range G3-F4
- Easily assembled in bank form

Description:

- Quick, easy and economical servicing of the filter media.
- Media can be supplied in bulk roll, or in pads pre cut to the correct size.
- Access to the media is by unclipping the retaining wire on the air entry side.
- Reduces long-term maintenance costs as the metal frame is retained for reuse.

Construction:

- Galvanised frame.
- Manufactured in any face size.
- Available in 20mm, 25mm or 50mm deep.
- Wire guard prevents the media from dislodging while in service.
- Powdercoated frame for extra durability.

Performance Data:

A selection of our popular medias to choose from:

| Media Code | Regenerability | Face Velocity m/s | Initial Resistance Pa | Average Arrestance % | Filtrer Class. |
|------------|----------------|-------------------|-----------------------|----------------------|----------------|
| W | Washable | 1.8 | 26 | 85 | G3 |
| D | Disposable | 1.8 | 26 | 85 | G3 |
| 7 | Disposable | 1.8 | 55 | 90 | G4 |

Notes:

1. All performance data is based on test methods described in AS1324.2
2. Fibreglass media can alternatively be installed for high dust loading applications.
